SUMMARY

Senior Software and Web Developer with over 15 years of experience in front-end technologies including React, TypeScript, and JavaScript. Proven track record of building e-commerce front ends and software UI's, enhancing e-commerce performance through A/B testing and targeted feature development, contributing to substantial conversion rate improvements. Strong expertise in UI/UX principles and Agile methodologies, consistently delivering high-quality, accessible web solutions. Ready to leverage unique skills to drive impactful results and optimize user experiences for forward-thinking organizations.

WORK EXPERIENCE

08/2024 - 04/2026

Senior Engineer, Web Developer **Foot Locker, Inc.**

- Engineered A/B tests for Foot Locker & Champs Sports e-commerce websites, enabling the business to analyze data and establish a roadmap for revenue-generating enhancements and features
- Developed tests utilizing JavaScript, CSS, HTML, and Adobe Target within a React/Typescript ecosystem.
- Participated in ideation sessions, contributing innovative test ideas for upcoming sprints.
- Collaborated in grooming discussions, working closely with designers, product owners, QA, and UAT teams.

12/2022 - 03/2024

Senior Front-End Software Engineer **Nike, Inc.**

- Constructed UI components and business logic for Nike's internal software using React/TypeScript, enabling users to perform internal business tasks related to endorsement monetary obligations
- Demonstrated expertise in front-end best practices by crafting clean, reusable code, delineating areas of concern, and implementing performance and accessibility standards.
- Engaged in CI/CD and Agile development methodologies.
- Designed features and layouts using Figma.
- Performed unit tests with Jest and react-testing-library to ensure dependable code delivery.
- Actively contributed in design discussions and grooming sessions for new features and business initiatives, participating in sprint planning sessions.

03/2017 - 08/2022

06/2013 - 03/2017

Tech Specialist II

Senior Developer

PVH, Corp. (Calvin Klein, Tommy Hilfiger)

- Executed front-end UI/UX development for Calvin Klein and Tommy Hilfiger e-commerce websites, focusing on feature development, content management, A/B testing, and API integrations
- Successfully engineered pixel-perfect, reusable UI components and layouts for multiple site redesigns and re-platforms
- Developed React.js micro-campaign pages for Calvin Klein celebrity collaborations, runway shows, capsule collections, and promotional events
- Maintained and refreshed bi-weekly sales and promotional content across the e-commerce website for both US and CA regions.
- Conducted A/B tests to enhance customer experience and boost conversion rates.
- Led and mentored engineers to ensure that development met business requirements and that delivery was on schedule.
- Actively participated in sprint planning sessions, ideation and grooming sessions.

09/2012 - 04/2013

Software Engineer

Wolters Kluwer N.V.

- Executed front-end UI/UX development for the internal Java-based desktop application rewrite to Angular SPA, utilizing JavaScript, CSS, and HTML.
- Designed UI/UX layouts using Sketch software.
- Participated in design and architecture planning discussions.
- Engaged in CI/CD and Agile development practices
- Contributed in sprint planning sessions and daily stand-ups.

08/2006 - 09/2012

Website Developer

Digital-Day Creative Group / Quez Media / Ante Up Audio

- Performed front-end UI/UX development for brands such as Smuckers, Reynolds Wrap, Duck Brand Tape, Pillsbury, and others.

EDUCATION

- **HarvardX CS50x Computer Science Certification**
- **Meta on Coursera Certification, Meta Front-End Developer**
